

INGREDIENT GLOSSERY (no particular order)

JOJOBA WAX

Jojoba wax is naturally derived and packed with beneficial fatty acids, vitamins and minerals - much like jojoba oil - in a solid form. Due to its naturally occurring antioxidants, jojoba has been known to extend the shelf life of cosmetics, whilst carrying over their nutritional benefits for the skin. It is an eco-friendly, biodegradable and gentle wax, making it not only an excellent cosmetic ingredient for skin care, but can be used on sensitive, mature and problem skin guilt-free. Jojoba oil contains vitamin E, B-complex vitamins and the minerals silicon, chromium, copper and zinc, making it incredibly nourishing and beneficial for all skin types. ECOCERT certified

WATERMELON SEED OIL 100% natural

Watermelon Seed oil is a very light yet is a very nourishing , super-absorbent oil, rich in omega 6 & 9 EFA , excellent for baby skin care & face oils as easily absorbed and leaving no residue. Its viscosity, mild aroma and indefinite shelf life make it a good all-purpose carrier oil.

TOCOPHEROL

Tocopherol is known as vitamin E and is derived from vegetable oils. ECOCERT and COSMOS certified.

MANIHOT ESCULENTA (Tapioca) ROOT STARCH

Tapioca is the starch gained from cassava (manioc) root. It is a white powder that is used in cosmetic products to improve consistency.

STEARIC ACID

An oily, white, waxy acid (a naturally-occurring fatty acid) obtained from vegetable fats (naturally occurring in cocoa and shea butters), helping to support dry skin and used as emulsifying agent. ECOCERT and COSMOS certified.

CRAMBE SEED OIL (organic cold pressed) 100% natural

Also known as Abyssinian oil is an excellent natural lubricant and emollient with unique skin-feel and skin care qualities. Rich in eurcic acid.

COCO CAPRYLATE

Coco-Caprylate or Caprylic / Capric Triglyceride is derived from coconut oil. Coco-Caprylate is a natural emollient and helps your skin to moisturize. Coco-Caprylate is responsible for a silky feeling and is an excellent alternative for syntactic cheap silicones that more or less give the same silky feeling. An other benefit of Coco-Caprylate is that it helps to reduce wrinkles. ECOCERT certified

ALKYL BENZOATE C12-15

C12-15 alkyl benzoate is a naturally occurring ester of benzoic acid. This common ingredient is soluble in oil and oil-like ingredients, and can impart a lightly conditioning, silky finish to products. Its excellent solubility is one of the main reasons its used in so many sunscreens, as it helps keep the active ingredients dispersed throughout the formula. It is a key ingredient in skin lotions and other personal care products that improve the softness of dry skin. C12-15 Alkyl Benzoate is generally considered to be safe and used in baby skin care. We use a more sustainable version that is manufactured utilizing starting raw materials that are naturally derived from coconut.

ARCTIC CRANBERRY SEED CO2 EXTRACT

A totally pure and natural Botanical CO2 Extract well known for its soothing and nourishing properties

DECYL GLUCOSIDE

Decyl glucoside is a mild, non-ionic surfactant, ideal for foaming cleansing formulas such as shampoos, body washes and facial cleansers. Our Decyl glucoside is ECOCERT certified, preservative free and obtained from renewable plant origin, and does not contain any impurities. Decyl glucoside is easily biodegradable, environmentally friendly and compatible with all surfactants, whatever their nature or pH range, making it easy to use in all your cleansing formulations. ECOCERT.

INCI: *Coco-Glucoside (and) Glyceryl Oleate*

A mild surfactant naturally derived from coconut and sunflower oil which allows it to gently soften and condition the skin, and working well in formulations aimed towards sensitive skin types. ECOCERT.

INCI: *Avena sativa Meal Extract*

As Oat Silk removes greasiness and excess oil from the skin without drying or damaging, it can be used in a variety of facial applications for sensitive, mature and acne-prone skin types. As it is a 100% natural product without additives, the user is safe in the knowledge that they are not placing any harsh chemicals on the skin.

CETYL ALCOHOL

Cetyl Alcohol is naturally derived from coconut oil. ... Cetyl alcohol can enhance texture and feel of lotions, creams, and scrubs. This 95% cetyl alcohol offers higher purity. Biodegradable. ECOCERT certified

PRESERVATIVE: INCI: Benzyl Alcohol (and) Salicylic Acid (and) Glycerin (and) Sorbic Acid (Meets Ecocert and COSMOS Standards)

This is a broad spectrum preservative which contains four different components: Benzyl Alcohol, Salicylic Acid, Glycerin and Sorbic Acid. These molecules are all found in nature in plants such as pine resin, rowan berries and willow bark. It is a non-paraben, non-formaldehyde, non-isothiazolone based preservative system.

ORGANIC COLD PRESSED CASTOR OIL

The Castor Oil we use in our products is cold-pressed without heat or chemical substances like hexane. This way, it retains all the healing properties of the oil, without any harmful additives or ingredients. As no chemicals are used during the extraction process, pure cold pressed castor oil is free from adverse chemicals and chemical by-products. ECOCERT certified

ORGANIC SHEA BUTTER

Shea Butter has smoothing properties and preserves the innate moisture of the skin. The skin-friendly Shea Butter is mainly used to improve consistency. It is a semi-solid butter-like vegetable fat. Contains a heap of beneficial components like fatty acids (oleic, stearic and linoleic acid) and antioxidants (quercetin, epicatechin gallate, gallic acid, epigallocatechin, allantoin). ECOCERT certified

CETEARYL ALCOHOL

Cetearyl Alcohol (Cetostearyl Alcohol): Used to give consistency to cosmetic products, it is a fatty alcohol which is extracted biologically. Cetearyl alcohol has a moisturizing effect. It is derived naturally from coconut oil and is easily biodegradable. ECOCERT and COSMOS certified.

Lavandula Angustifolia (Lavender) Oil

Soothing, relaxing, and calming. Nurtures and eases skin discomfort.

Citrus Aurantium Duclis (Neroli) Flower Extract

A floral extract with antiseptic, bactericide, and aromatherapeutic properties.

Pelargonium Graveolens (Geranium) Flower Oil

Antiseptic that controls excess oil. Supports the lymphatic system and encourages healthy microcirculation.

INCI: *Isoamyl Laurate & Isoamyl Cocoate*

This naturally derived, vegetable based emollient is made from natural, renewable sources such as sugar and coconut. It offers superior volatile behaviour, ideal for replacing typical "volatile silicones" in cosmetic applications. It is free from CMR, free from solvents, has no inhalation toxicity and respects our environment.

Calcium Carbonate 100% natural

– is an inorganic salt. Calcium helps to clear blemished skin and revitalizes lifeless looking skin when used as a gentle exfoliant.. Like Kaolin clay Calcium allows for oil absorption from the surface of the skin without drawing moisture away from the skin. A natural alternative to harmful microplastics. ECOCERT and COSMOS certified

BAMBUSA ARUNINACEA STEM POWDER.

A natural exfoliant to gently polish skin; buffs away surface debris, and assists in clearing clogged pores to alleviate future breakouts. ECOCERT certified

PINEAPPLE FRUIT POWDER :100% (inci: Ananas Sativus)

Freeze-dried pineapple. Powdered pineapple and nothing added. Never any additives, preservatives or sweeteners. Always naturally gluten, dairy, wheat and nut free! Pure enough to eat. Ananas Sativus (Pineapple): This is a tropical fruit rich in bromalinal, an enzyme that helps eliminate dead cells and toxins. Therefore, pineapple becomes an ideal ingredient for exfoliating dead cells from the face.

Rosa Damascena (Rose) Flower Oil

An essential oil that regenerates the skin and helps to repair photo damage. Rich in Vitamins A, C, and E, it is excellent for any skin type.

RASPBERRY SEED POWDER 100% (inci: Rubus Idaeus)

As this is an all-natural fruit powder it is non-irritating. It is made from spray-dried raspberries. Raspberries are reported to have skin stimulating properties, and can soothe reddened skin as well as help regulate sebum levels. Perfect for any type of skin.

Rosa Centifolia POWDER (ORGANIC)100% natural

Cooling and Soothing - Rose has antioxidants which prevent the formation of wrinkles. The regular use of rose petal powder for cleansing, toning and exfoliating tightens the skin and slows down aging.

ROSEHIP POWDER 100%

Rose hips contain natural tretinoin, the acid form of vitamin A, which helps to delay the effects of skin ageing, promoting collagen and elastin levels and replenishing and rebuilding skin tissue. This helps to make the skin firmer, smoother and younger looking, also particularly high in Vitamin C, one of the richest plant sources available.

Rose hips also contain a high amount of essential fatty acids and Vitamin E, which further promotes healthy skin. In particular, it is rich in linoleic and linolenic acids, which are important skin nutrients.

ROSEHIP ORGANIC CO2 EXTRACT

A totally pure and natural Botanical CO2 Extract well known for its soothing and nourishing properties for sensitive skin.

Linalool:

Component present in many essential oils including orange, lavender, rose, rosewood or cilantro.

Limonene:

A natural substance present in certain essential oils. Limonene (D)

A phytochemical and antioxidant that restores skin tone and enhances the natural cleansing and detoxification processes of the skin.

Parfum/Natural Oils

Pure essential oils blended to enhance formulations.

Geraniol:

Alcohol and allergen naturally present in a variety of essential oils.

Benzyl Alcohol (Benzyl alcohol):

Antibacterial preservative which is extracted from plants of the Jasmine family. It is also an allergen which is naturally present. This ingredient is certified by the ECOCERT and ORGANIC SOIL ASSOCIATION

Citronellol:

A naturally present Allergen. Naturally present in citrus fragrance and plants such as rose, geranium or lemongrass.

Theobroma Cacao 100% natural organic

Cocoa Powder is a great skin cleanser and a powerful antioxidant and it protects and removes free radicals that can cause damage to skin layers. It is an excellent moisturizer and has a smooth cleaning action that lasts. Many of our customers tell us it also elevates their mood. Organic Cacao Powder is certified organic by the Soil Association under the code GB-ORG-05.

PURE COFFEE BEAN BUTTER (Coffea arabica) 100% pure organic

Expeller Pressed. Coffee butter is a soft, creamy butter with a delectable pure coffee aroma, making it excellent for fragrance-free cosmetics for sensitive skin.

The phytosterol (plant sterol) content of Coffee (bean) Butter also gives it anti-inflammatory properties making it useful in formulations intended to ease skin redness or swelling; it helps to protect the skin from harsh weather. A good choice for inclusion in anti-aging formulas, it is rich in the Polyphenol Chlorogenic Acid. Chlorogenic Acid is a powerful anti-oxidant providing free radical scavenging properties. Keeps the skin moist and wrinkle free
